

### Information

Name:	Project trdgp
Description:	Description of trdgp.
Version:	1.0
Date Created:	2022-01-21T10:15:30
Git Commit:	1e84b5100e09d9b6c5ea1b6c2ccee8957391beec
Git Tag:	ods-generated-v3.0-3.0-0b11-D
Git URL:	<a href="https://bitbucket-dev.biscrum.com/scm/ordgp/trdgp-releasemanager">https://bitbucket-dev.biscrum.com/scm/ordgp/trdgp-releasemanager</a>
OpenShift Cluster API URL:	<a href="https://openshift-sample">https://openshift-sample</a>
Created by Jenkins Job Name:	ordgp-cd/trdgp-releasemanager
Created by Jenkins Build Number:	666

## Test Cases Plan for 'Project trdgp'

### TABLE OF CONTENTS

- 1 [DOCUMENT HISTORY](#)
- 2 [REVIEW, SCOPE AND INSTRUCTIONS OF TEST EXECUTION](#)
- 3 [TEST CASES](#)
  - 3.1 [INTEGRATION TEST CASES](#)
  - 3.2 [ACCEPTANCE TEST CASES](#)

## 1 DOCUMENT HISTORY

Version	Date	Author	Change Reference
1	See Summary of electronic document or signature page of printout.		Initial document version.

The following table provides extra history of the document.

Version	Date	Author	Reference
	See summary of electronic document or signature page of printout.		

## **2 REVIEW, SCOPE AND INSTRUCTIONS OF TEST EXECUTION**

The test will be executed as automated tests. The completeness and correctness of the scripts for the automated testing will be verified by code reviews during the development phase.

The test case plan will be approved for execution by the workflow / approvals in the electronic Document Management System (eDMS).

No manual tests will be managed by this document, therefore manual approvals / signatures on the test case plan / test case report are obsolete.

Successfully performed automated test do not require a formal test review. The executed test will be confirmed and approved by the workflow / approvals in the electronic Document Management System (eDMS).

As the test execution is fully automated, Jenkins (Technical Role) shall:

- Execute the code base test cases
- Record the test results and evidence after the execution and include them in the XUnit file
- Following Good Documentation Practices
- Mark the test cases as a "Fail" or a "Pass"
- Stop the test execution if one of the test cases has failed
- Report back the test execution results to the Test Management Tool

### 3 TEST CASES

#### 3.1 INTEGRATION TEST CASES

Test Case Number:	TRDGP-131
Test Objective:	Integration Test
Requirement / Specification:	TRDGP-125
Target Environment:	D
Prerequisites:	N/A

Step	Instructions	Expected result	Actual result	Initials / Date
------	--------------	-----------------	---------------	-----------------

Test Case result by Tester	Date:	Signature:
Test Case: <input type="checkbox"/> Pass <input type="checkbox"/> Fail Comment (mandatory if failed):		

### 3.2 ACCEPTANCE TEST CASES

<b>Test Case Number:</b>	TRDGP-130
<b>Test Objective:</b>	Acceptance Test
<b>Requirement / Specification:</b>	TRDGP-125
<b>Target Environment:</b>	D
<b>Prerequisites:</b>	N/A

Step	Instructions	Expected result / Evidence	Actual result	Initials / Date
------	--------------	----------------------------	---------------	-----------------

<b>Test Case result by Tester</b>	<b>Date:</b>	<b>Signature:</b>
Test Case: <input type="checkbox"/> Pass <input type="checkbox"/> Fail Comment (mandatory if failed):
